	IPEDS DATA FEEDBACK REPORT 2023	

The FactBook is an annual compilation of institutional data. *The FactBook* serves as a resource to the Baker University community. While the conceptualization and compilation processes necessary to create the tables and figures contained within this edition have been carried out by the Office of Institutional Research and its staff, several other University entities have made contributions to the annual report. The Office of Institutional Research would like to thank the following individuals, departments, offices, and schools for their contributions to this edition:

The Office of Admissions
The Department of Athletics
The College of Arts and Sciences (CAS)
The School of Education (SOE)
The Office of Financial Aid
The Office of Human Resources
The School of Nursing (SON)
The School of Professional and Graduate Studies (SPGS)
The Office of the University Registrar
Information Technology
Dr. Rand Ziegler

The information provided in this volume reflects what was available as of the close of business on the twentieth day of the fall 2023 semester (September 20, 2023).

PART I

TUITION

Tables 1a through 1d present the annual expenses associated with attending Baker University.

Students enrolled in both the College of Arts and Sciences (CAS) and the undergraduate division of the School of Education (USOE) typically reside on the Baldwin City campus. In addition to tuition and fees, these students are also charged for room and board. Table 1a lists each of these expenses for students on the Baldwin City campus for the most recent 10-year period. All charges are assessed annually except those listed in the far-right column, which are assessed on a one-time per student basis (e.g., matriculation and graduation fees). In addition, the average annual increase (%) is presented for the tuition, room and board expenses for the same 10-year time frame.

Table 1b presents the tuition, annual fees and one-time fees for students enrolled at the School of Nursing (SON) over the most recent 10-year period. The average annual increase (%) is presented for each of these expenses for the same 10-year time frame.

Table 1c presents the annual tuition and fees for both undergraduate and graduate students enrolled at the School of Professional and Graduate Studies (SPGS) over the most recent 10-year period. Tuition is listed by degree program and includes the average annual increase (%) for the same 10-year time frame.

Tuition and fees for students enrolled at the graduate division of the School of Education (GSOE) are presented in Table 1d. Tuition expenses per credit hour are listed by degree program for the most recent 10-year period. As indicated tuition for the Ed.D. program was assessed per credit hour from 2010/11 through 2012/13 and as a flat fee in 2009/10, 2013/14 through 2021/22. For the masters programs, the average annual tuition rate increase (%) is also presented for the same 10-year time frame.

PART II

ADMISSION

The tables and figures in this section present various admission statistics (including conversion rates) and first-year student profiles (where applicable) for both the Baldwin City campus (CAS and USOE) and SON.

Table 2a provides application, acceptance, enrollment and conversion rate data for each new CAS/USOE student cohort entering Baker during 2014-2023. The academic profile for each of these cohorts is also presented in the last few columns of the table. This includes the mean high school grade point average (GPA) and mean composite ACT score for each entering class. (The national average ACT score for high school seniors for each of these 10 years is also provided for comparison.) In addition, 10-year averages are presented for all of these indicators. Figure 2a illustrates the conversion rate trends over the 10-year time frame. Table 2b offers an in-depth analysis of the distribution of ACT scores across each of these 10 most recent CAS/USOE freshman cohorts.

Table 2c provides application, acceptance, enrollment and conversion rate data for SON students for the most recent 20-semester (10-year) period. Unlike programs on the Baldwin City campus, the School of Nursing admits a new cohort each semester rather than each year. Table 2c also offers a brief academic profile (mean transfer GPA) for each entering first-time cohort at SON for these same 20 semesters. Additionally, the number and percentage of SON students that transitioned from Baker University's Baldwin City campus are included in the last two columns of the table. The 20-semester average for each of these indicators is listed in the bottom row. Figure 2b illustrates the conversion rate trends over the same 20-semester time frame.

At this point in time, historic application, acceptance, enrollment and conversion rate data for SPGS and GSOE are unavailable.

PART III

ENROLLMENT

The following tables and figures present various views of Baker University enrollment data for the past 10 years. Except for the spring semester data presented in Table 3c, all enrollment numbers reflect the official fall-semester 20th-day counts used for external reporting purposes.

In Table 3a, enrollment headcount, number of full-time (FT) students¹ and student FTE (full-time equivalent)² figures are presented for the most recent 10-year period for the University as a whole, for the Baldwin City campus (CAS/USOE), for the School of Nursing (SON), for the graduate programs within the School of Education (GSOE) and for the School of Professional and Graduate Studies (SPGS), both undergraduate and graduate divisions. Reliable data for full-time student counts are presented for 10 years at each campus/school. In addition, faculty FTE figures and student-faculty ratios are presented for each campus/school. Figures 3a(i), 3a(ii) and 3a(iii) illustrate University enrollment trends by campus/school over time as measured by headcount, full-time students and student FTE respectively. A decision was made to remove continuing education and COOP students from this table. Table 3d is included to provide these numbers.

Table 3b further segregates headcount and FTE enrollment numbers at SPGS and GSOE by degree program over the most recent 5-year period. Table 3c compares 20th-day fall and spring enrollment data for the Baldwin City campus for the most recent 10-year period. In 2008/09, Baker established a concurrent credit partnership with two Johnson County school districts. Course enrollments for this program are listed separately, also in Table 3c.

¹ An undergraduate student is defined as full-time if he/she is enrolled in a minimum of 12 credit hours for the equivalent time frame of a single semester. A graduate student is defined as full-time if he/she is enrolled in a minimum of 9 credit hours for the equivalent time frame of a single semester.

² Full-time equivalent (FTE) for undergraduate students is fifteen credit hours per semester. For graduate students, this is nine credit hours per semester. Note the Kansas Board of Regents changed the definition of graduate FTE starting in Fall 2018 to 12 credit hours per semester. The Fall 2019 KHEER report reflects this change, but for FactBook consistency the 9 credit hours per semester for graduate FTE was maintained.

PART IV

RETENTION

The following tables include first-time first-year (traditional freshman) retention data for students at the Baldwin City campus and first-year cohort retention data for students at the School of Nursing.

In a continuing study since the fall of 1986, first-time, first-year students on the Baldwin City Campus have been tracked in terms of their retention, as measured by the percentage of students who return to school, semester by semester, from a given entering first-year cohort. Successful completions are tracked by 4-year, 5-year and 6-year graduation rates.

In Table 4a(i) retention data are presented for all CAS/USOE freshman students in each entering fall cohort for the 15-year period from 2009-2023. In addition, Tables 4a(ii) through 4a(x) present retention rates for the following CAS/SOE subgroups over the same 15-year time period: men, women, Greek-affiliated students, non-Greek-affiliated students, athletes, non-athletes, football players, minority students and students admitted with academic conditions. The average semester-by-semester retention rates for all students and each student subgroup for this time frame are presented in the bottom row of each table.

Figures 4a(i) and 4a(ii) illustrate selected CAS/USOE retention percentages of particular interest. Figure 4a(i) illustrates freshman-to-sophomore retention percentages, a standard benchmark for measuring success in retaining first-time first-year students. For the most recent 14 entering freshman cohorts who became sophomores on Baker's Baldwin City campus (2009-2022), the retention rate has averaged approximately 76.4% (range: 66.5%-81.7%). Figure 4a(ii) illustrates the semester-by-semester mean retention percentages calculated for all entering CAS/USOE cohorts since the fall of 2009, along with 4-year, 5-year, and 6-year average graduation rates.

Starting with the fall of 2009, Table 4b tracks the retention rates for Baldwin City campus transfer cohorts through 10 semesters after transferring. Completed retention data through graduation are presented for all incoming transfer cohorts from fall 2009 through spring 2019.

Starting with the spring of 2014, Table 4c tracks the retention rates for new fall- and spring-entering SON cohorts through 6 semesters. Completed retention data through graduation have been compiled for all incoming nursing cohorts from spring 2014 through fall 2020. Figure 4c illustrates both the SON retention rates by semester as well as graduation rates through 4, 5 and 6 semesters.

SEMESTER COHORTS Spring 2014-Spring
2023

PART V

COMPLETIONS

The tables and figures in this section follow closely from those presented in Part IV, wherein retention rates naturally lead to graduation rates.

Table 5a, in a single summary table, presents the 4-year, 5-year and 6-year graduation rates for all first-year freshman cohorts on the Baldwin City campus since 2010. The graduation rates for each retention subgroup are also directly compared in Figure 5a(i). Figure 5a(ii) illustrates the graduation rates of the Baldwin City campus transfer students that follow from the corresponding transfer retention rates first presented in Table 4b. Since the enrollment and retention of first-time transfer student cohorts are tracked on a semester (rather than yearly) basis, graduation data are presented for the 20 most recently graduated cohorts from the fall 2010 through the spring of 2019.

While there is not a separate completions table or figure included in this section for the School of Nursing, complete 6-semester graduation rate data for the spring 2014 through fall 2020 entering cohorts are included in Table 4c (separated from later cohorts by a dark horizontal line). Based on data generated by these 14 completed SON cohorts, an average of 65.9% graduate after 4 semesters. An additional 13.7% and 0.8% graduated after 5 and 6 semesters respectively, totaling a 6-semester average graduation rate of approximately 80.4%.

Tables 5b and 5c, respectively, present the graduation rates of CAS/USOE students by two key federal financial aid categories and by academic major field of study. For Pell grant and Stafford loan recipients, 4-year, 5-year and 6-year graduation rates are listed for annual cohorts beginning with the 2010 academic year in Table 5b. Table 5c lists the distribution of graduates across the major disciplines of study on the Baldwin City campus over the most recent 10-year period. Data for each year (absolute numbers and percentages) as well as 10-year totals are presented.

Table 5d lists the distribution of graduates across the University's various degree programs at all schools and the college. Data for each of the past 5 years (absolute numbers and percentages) as well as the 5-year totals are indicated.

PART VI

STUDENTS

The following tables present ethnicity and gender data distributions for all University students (excluding professional development students) for the most recent 5-year period (2019-2023). It is important to note that this information is self-reported and voluntarily offered by the students through various surveys. Consequently, a considerable number of students do not volunteer ethnicity information and are captured in a category labeled “Race and Ethnicity Unknown.”

Table 6a presents these data for the University as a whole. Both headcount and percentage distributions are included. Tables 6b, 6c, 6d and 6e present the same data in the same format at the individual campus/school level – Baldwin City (CAS/USOE), the School of Nursing, the School of Professional and Graduate Studies and the graduate division of the School of Education, respectively.

PART VII

FACULTY/STAFF

The tables and figures in this section present a variety of profile characteristics related to Baker University's staff, primarily its faculty.

Table 7a and Figures 7a(i) and 7a(ii) list and illustrate the gender distributions by employment category for all full-time Baker University employees for the most recent 10-year period. Only CAS, SOE and SPGS employees are included because the SON staff and faculty are not formally employed by the University. Employment categories include faculty (more than a half-time teaching load), administrators (salaried staff), and support staff (hourly staff).

Table 7b presents a composite distribution of full-time teaching and learning resources faculty by rank and tenure status, as well as an overall count of part-time faculty for the college and all schools of the University. Data are presented annually for the most recent 5-year period (as published on the official fall reporting date). Tables 7c through 7f list the same data at the campus/school level for Baldwin City (CAS/USOE), SON, SPGS, and the graduate division of SOE respectively.

Table 7g summarizes the gender and ethnicity distributions for all full-time teaching faculty at CAS/USOE, SPGS and GSOE for fall 2022. These data are also segregated by faculty rank.

PART VIII

PRODUCTION

The tables in this section provide credit-hour production data for the various academic disciplines and programs on each Baker University campus.

Tables 8a and 8b present summaries of total annual credit-hour production and annual credit-hour production per full-time equivalent (FTE) faculty member, respectively, across the various CAS/USOE academic disciplines/programs. The disciplines/programs are ranked on both of these measures for each the 2022/23 academic year and the most recent 10-year period (2013/14 through 2022/23). For example, the Business program has generated the most total credit hours during the past academic year (2390), the Baker Core program produced the most total credit hours during the aggregate 10-year period (3028 average). Similarly, Art History courses have generated the highest annual credit-hour production per FTE faculty during the past academic year (672) and Economics has the highest credit-hour production per FTE faculty during the aggregate 10-year period (553 average). Table 8c provides trend data for the same set of CAS/USOE academic disciplines/programs. The total credit-hour production (left column) and credit-hour production per FTE faculty (right column) figures for 2022/23 are presented in terms of percent increase or decrease compared to the overall 10-year average. For example, total credit-hour production from Gender Studies for the past academic year is 162.5% higher than its average production over the most recent 7-year period. Similarly, credit-hour production per FTE faculty from Art History for the past academic year is 173.0% higher than its average production over the past 10 years.

The set of sub-tables presented as Table 8d offer a detailed semester-by-semester report of all discipline-based credit-hour production on the Baldwin City campus for the most recent 10-year period. The sub-tables are organized by academic department and include:

- 1) the number of total credit hours produced by each discipline per semester and per academic year,
- 2) the faculty FTE³ for each discipline per semester,
- 3) the number of credit hours produced per FTE faculty member within each discipline per semester and per academic year,
- 4) 10-year averages for each of the above,
- 5) the percent increase or decrease from the preceding year, in both total credit hours produced and annual credit hours produced per FTE faculty, for each discipline per academic year.

The last series of sub-tables associated with Table 8d present 10 years of discipline-based data for the off-campus high school concurrent credit programs begun during the 2008/09 academic year.

The set of sub-tables presented as Tables 8e and 8f summarize credit hour production at SPGS and GSOE respectively for the 5 most recent academic/fiscal years. For each school, the sub-tables are

³ Faculty FTE, or full-time equivalent, is a 12 credit-hour teaching load per semester and a 24-hour load per academic year (18-hour annual load for faculty teaching in the GSOE EdD program)

PART VIII

organized by degree program and include:

- 1) the number of total credit hours produced in each degree program per month per academic/fiscal year,
- 2) the total credit hours produced for each academic/fiscal year,
- 3) 5-year averages for each of the above.

PART IX

COMPARISONS

This section is comprised of an assorted set of direct comparisons between Baker University and any of its various peer groups. Plans include increasing the number and variety of comparisons offered in this section in the future – with the ultimate goal of better understanding Baker University’s standing on important dimensions relative to widely recognized and respected benchmarks.

Table 9a presents Baker University’s annual ranking by U.S. News and World Report from 2000 to the present. Both the USN&WR institutional category definitions and Baker’s categorical assignment have changed on several occasions during this time frame. Through 2007, Baker was categorized as a “Masters Level Institution” and was ranked regionally with other comparable schools in the Midwest. From 2008-2011, Baker was re-classified as a “Primarily Liberal Arts Institution” and was ranked against its peers nationally. From 2012-2019, Baker was again re-classified as a “Midwest Regional University” and ranked with other schools in the Midwest (Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota and Wisconsin). Starting in 2020 Baker University was classified as a National University. This change was based upon the most recent Carnegie classification update where Baker University was classified as a Professional/Doctoral University because Baker awarded more than 20 doctoral degrees in the update year, but had less than \$5 million in research expenditures. All universities in this Carnegie category were classified as National Universities by USN&WR. In addition to the rankings themselves, the table also presents annual Baker data related to the institutional characteristics used by the publication as criteria for its rankings. The two sub-tables compare Baker to other institutions in its same category in Kansas and Missouri respectively.

Very simply, Table 9b compares the fall-generated student-faculty ratios on the Baldwin City campus with those generated by the 17 other member schools of the Kansas Independent Colleges and Association (KICA). Figures are presented for the most recent 5-year period wherein data were available for each school (2018-2022). In addition, the recently calculated 2022 ratio for Baker University (13.1) is included at the top of the table.

Baker’s Baldwin Campus freshman-to-sophomore retention rates and 6-year graduation rates are compared with two peer groups in Table 9c. The first is comprised of an 11-institution peer group that was formally established as a part of an extensive strategic planning process undertaken by the University in 2003. This “established” group includes the following institutions: Adrian College (Adrian, MI), Carroll College (Helena, MT), Central College (Pella, IA), Franklin College (Franklin, IN), Maryville College (Maryville, TN), Monmouth College (Monmouth, IL), Northland College (Ashland, WI), Texas Lutheran University (Seguin, TX), Wartburg College (Waverly, IA), Westminster College (Fulton, MO), and William Jewell College (Liberty, MO). The second peer group is comprised of the same 17 KICA schools used for the student-faculty ratio comparisons in Table 9b. For the retention rate comparison, data from the entering

PART IX

freshman cohorts of 2017-2021 are presented. For the 6-year graduation rate comparison, data from the entering freshman cohorts of 2012-2016 are compared. These are the most recent figures available from the U.S. Department of Education's National Center for Education Statistics (NCES). In addition to the individual annual institutional data, the 5-year average is presented for each school as are the annual averages for all schools within a given comparison group. Figures 9c(i) (retention rate) and 9c(ii) (graduation rate) illustrate comparisons with each of these two peer groups directly.

Tables 9d and 9e list annual faculty salary data for all full-time instructional faculty members employed by the University who have been on 9- or 10-month contracts for the most recent 5-year period for which data are available. (These "salary only" data are reported annually on November 15 and do not include expenses for any employment benefits provided.) Salaries are reported by rank and by gender. In addition, these data are compared with the same salary data from the two different peer groups described above in two separate tables. Table 9d contrasts Baker faculty salaries with those from the 11-institution established peer group generated by the 2003 strategic planning process. Table 9e offers a salary comparison with the 17 KICA schools. All data collected for both of these analyses have been obtained from the U.S. Department of Education's National Center for Education Statistics (NCES) online Peer Analysis System, which accesses information submitted by U.S. post-secondary institutions annually within NCES's Integrated Postsecondary Education Data System (IPEDS).

Figures 9d(i), 9d(ii) and 9d(iii) accompany Table 9d and offer visual gender comparisons between Baker and its established peers for each of the faculty ranks (assistant, associate and full professor, respectively). Similarly, Figures 9e(i), 9e(ii), and 9e(iii) accompany Table 9e illustrate salary differences between Baker and its fellow KICA schools.

Table 9f provides the most recently available five fiscal years (FY) of endowment level data for Baker University along with the same 11 peer institutions and 17 KICA institutions described above. All data collected for this analysis were also obtained from the U.S. Department of Education's National Center for Education Statistics (NCES) online Peer Analysis System, which accesses information submitted by U.S. post-secondary institutions annually within NCES's Integrated Postsecondary Education Data System (IPEDS). Figure 9f illustrates a direct comparison of endowments between Baker and the two peer groups.

 FY 2017/18 to FY 2021/22

PART X

SPECIAL REPORTS

This section of the FactBook aims to provide special reports, data, analyses and/or other information of interest that would not normally be shared among the analyses and reports that are routinely presented on an annual basis. Included herein is one such item for this year's edition.

Following naturally from the previous "Comparisons" section, this report was generated by the National Center for Educational Statistics (NCES) in 2023 and compares Baker to its "established" peer group (see the introduction to Part IX of this FactBook) on a variety of variables. Using data reported annually through the Integrated Postsecondary Education Data System (IPEDS), this Data Feedback Report is intended to provide institutions a context for further examining these data, especially as they relate to institutional benchmarking and peer comparison efforts. Included among the categories of data addressed are: 1) student demographics, 2) enrollment and degrees, 3) student costs and scholarships, 4) graduation rates, 5) staff composition and salaries, and 6) institutional revenues and costs.

IPEDS DATA FEEDBACK REPORT 2023

What Is IPEDS?

The Integrated Postsecondary Education Data System (IPEDS) is a system of survey components that collects data from all institutions that provide postsecondary education and are eligible to receive Title IV funding across the United States and other U.S. jurisdictions.

These data are used at the federal and state level for policy analysis and development; at the institutional level for benchmarking and peer analysis; and by students and parents, through the College Navigator (<https://nces.ed.gov/collegenavigator/>), an online tool to aid in the college search process. Additional information about IPEDS can be found on the website at <https://nces.ed.gov/ipeds>.

What Is the Purpose of This Report?

The Data Feedback Report is intended to provide institutions a context for examining the data they submitted to IPEDS. The purpose of this report is to provide institutional executives a useful resource and to help improve the quality and comparability of IPEDS data.

What Is in This Report?

The figures in this report provide a selection of indicators for your institution to compare with a group of similar institutions. The figures draw from the data collected during the 2022-23 IPEDS collection cycle and are the most recent data available. The inside cover of this report lists your selected comparison group of institutions and the criteria used for their selection. The Methodological Notes at the end of the report describe additional information about these indicators and the pre-selected comparison group.

Where Can I Do More with IPEDS Data?

Each institution can access previously released Data Feedback Reports from 2005 and customize this 2023 report by using a different comparison group and IPEDS variables of its choosing. To learn how to customize the 2023 report, visit this resource page <https://nces.ed.gov/ipeds/Help/View/2>. To download archived reports or customize the current Data Feedback Report, visit the 'Use the Data' portal on the IPEDS website <https://nces.ed.gov/ipeds> and click on Data Feedback Report.

**Baker University
Baldwin City, KS**

COMPARISON GROUP

Comparison group data are included to provide a context for interpreting your institution's indicators. If your institution did not define a custom comparison group for this report by July 15, 2023 NCES selected a comparison group for you. (In this case, the characteristics used to define the comparison group appears below.) The customized Data Feedback Report function available at <https://nces.ed.gov/ipeds/use-the-data/> can be used to reproduce the figures in this report using different peer groups.

The custom comparison group chosen by Baker University includes the following 11 institutions:

- ▶ [Adrian College](#) (Adrian, MI)
- ▶ [Carroll College](#) (Helena, MT)
- ▶ [Central College](#) (Pella, IA)
- ▶ [Franklin College](#) (Franklin, IN)
- ▶ [Maryville College](#) (Maryville, TN)
- ▶ [Monmouth College](#) (Monmouth, IL)
- ▶ [Northland College](#) (Ashland, WI)
- ▶ [Texas Lutheran University](#) (Seguin, TX)
- ▶ [Wartburg College](#) (Waverly, IA)
- ▶ [Westminster College](#) (Fulton, MO)
- ▶ [William Jewell College](#) (Liberty, MO)

The figures in this report have been organized and ordered into the following topic areas:

Topic Area	Figures	Pages
1) Admissions (only for non-open-admissions schools)	1 and 2	3
2) Student Enrollment	3, 4, 5 and 6	3 and 4
3) Awards	7	4
4) Charges and Net Price	8 and 9	5
5) Student Financial Aid	10, 11, 12, 13, 14 and 15	5 and 6
6) Military Benefits*	[Not applicable]	
7) Retention and Graduation Rates	16, 17, 18, 19, 20, 21, 22, 23 and 24	7, 8, 9 and 10
8) Finance	25 and 26	11
9) Staff	27 and 28	11 and 12
10) Libraries*	29 and 30	12

*These figures only appear in customized Data Feedback Reports (DFRs), which are available through Use the Data portal on the IPEDS website.

Figure 1. Number of first-time undergraduate students who applied, were admitted, and enrolled full-time and part-time: Fall 2022

NOTE: Admissions data are presented only for institutions that do not have an open admission policy, and apply to first-time, degree/certificate-seeking undergraduate students only. For details, see the Methodological Notes. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Winter 2022-23, Admissions survey component.

Figure 2. Percent of first-time undergraduate applicants admitted, and percent of admitted students enrolled full-time and part-time: Fall 2022

NOTE: Admissions data are presented only for institutions that do not have an open admission policy, and apply to first-time, degree/certificate-seeking undergraduate students only. For details, see the Methodological Notes. See 'Use of Median Values for Comparison Group' for how median values are determined. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Winter 2022-23, Admissions survey component.

Figure 3. Percent of all students enrolled, by race/ethnicity, and percent of students who are women: Fall 2022

NOTE: For more information about disaggregation of data by race and ethnicity, see the Methodological Notes. Median values for the comparison group will not add to 100%. See 'Use of Median Values for Comparison Group' for how median values are determined. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Spring 2023, Fall Enrollment survey component.

Figure 4. Total 12-month enrollment, full-time and part-time 12-month enrollment, 12-month FTE enrollment (2021-22), and total fall enrollment, full-time and part-time fall enrollment (Fall 2022)

NOTE: For details on calculating full-time equivalent (FTE) enrollment, see Calculating FTE in the Methodological Notes. Total headcount, FTE, and full- and part-time fall enrollment include both undergraduate and postbaccalaureate students, when applicable. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Fall 2022, 12-month Enrollment survey component and Spring 2023, Fall Enrollment survey component.

Figure 5. Percent of students enrolled in distance education courses, by distance education status and student level: Fall 2022

NOTE: N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Spring 2023, Fall Enrollment survey component.

Figure 6. Percent of students enrolled in distance education courses, by distance education status and student level: 2021-22

NOTE: N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Fall 2022, 12-month Enrollment survey component.

Figure 7. Number of degrees awarded, by level: 2021-22

NOTE: N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Fall 2022, Completions survey component.

Figure 8. Tuition and required fees for full-time, first-time degree/certificate-seeking undergraduate students: Academic years 2019-20 to 2022-23

NOTE: The tuition and required fees shown here are the lowest reported from the categories of in-district, in-state, and out-of-state. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Fall 2022, Institutional Characteristics survey component.

Figure 9. Average net price of attendance for full-time, first-time degree/certificate-seeking undergraduate students, who were awarded grant or scholarship aid: Academic years 2019-20 to 2021-22

NOTE: Average net price is for full-time, first-time degree/certificate-seeking undergraduate students and is generated by subtracting the average amount of federal, state/local government, and institutional grant and scholarship awarded aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees (lower of in-district or in-state for public institutions), books and supplies, and the weighted average of room and board and other expenses. For details, see the Methodological Notes. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Fall 2022, Institutional Characteristics survey component and Winter 2022-23, Student Financial Aid survey component.

Figure 10. Percent of full-time, first-time degree/certificate-seeking undergraduate students who were awarded grant or scholarship aid, or loans, by type of aid: Academic year 2021-22

NOTE: Any grant aid above includes grant or scholarship aid awarded from the federal government, state/local government, or the institution. Federal grants include Federal Pell grants and other federal grants. Any loans include federal loans and other loans awarded to students. For details on how students are counted for financial aid reporting, see Cohort Determination in the Methodological Notes. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Winter 2022-23, Student Financial Aid survey component.

Figure 11. Average amounts of awarded grant or scholarship aid, or loans awarded to full-time, first-time degree/certificate-seeking undergraduate students, by type of aid: Academic year 2021-22

NOTE: Any grant aid above includes grant or scholarship aid awarded from the federal government, state/local government, or the institution. Federal grants include Federal Pell grants and other federal grants. Any loans include federal loans and other loans awarded to students. Average amounts of aid were calculated by dividing the total aid awarded by the unduplicated count of recipients at each institution. N is the number of institutions in the comparison group.

Figure 13. Average amount of Federal Pell grants and Federal Student loans awarded to degree/certificate-seeking undergraduate students: Academic year 2021-22

NOTE: Federal loans include federal loans to students. Average amounts of aid were calculated by dividing the total aid awarded by the unduplicated count of recipients at each institution. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Winter 2022-23, Student Financial Aid survey component.

Figure 14. Percent of undergraduate students awarded grant or scholarship aid, by degree/certificate-seeking status: Academic year 2021-22

NOTE: Grant or scholarship aid includes grant or scholarship aid from the federal government, state/local government, the institution, or other sources. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Winter 2022-23, Student Financial Aid survey component.

Figure 15. Average amount of grant or scholarship aid awarded to undergraduate students, by degree/certificate-seeking status: Academic year 2021-22

NOTE: Grant or scholarship aid includes grant or scholarship aid from the federal government, state/local government, the institution, or other sources. Average amounts of aid were calculated by dividing the total aid awarded by the unduplicated count of recipients at each institution. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Winter 2022-23, Student Financial Aid survey component.

Figure 16. Retention rates of first-time bachelor's degree-seeking students, by attendance status: Fall 2021 cohort

NOTE: Retention rates are measured from the fall of first enrollment to the following fall. Academic reporting institutions report retention data for the Fall 2021 cohort of students who are still enrolled as of the institution's official fall reporting date or as of October 15, 2022. Program reporters determine the cohort with enrollment any time between August 1 - October 31, 2021 and retention based on August 1, 2022. Four-year institutions report retention rates for students seeking a bachelor's degree. For more details, see the Methodological Notes. N is the number of institutions in the comparison group. Medians are not reported for comparison groups with less than three values.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Spring 2023, Fall Enrollment survey component.

Figure 17. Graduation and transfer-out rates of all full-time, first-time degree/certificate-seeking undergraduate students within 150% of normal time to program completion: 2016 cohort

NOTE: Graduation rate cohort includes all full-time, first-time degree/certificate-seeking undergraduate students. Graduation and transfer-out rates are the Student Right-to-Know rates. Only institutions with mission to prepare students to transfer are required to report transfer out. For more details, see the Methodological Notes. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Winter 2022-23, Graduation Rates survey component.

Figure 18. Graduation rates of all full-time, first-time degree/certificate-seeking undergraduate students within 150% of normal time to program completion, by race/ethnicity: 2016 cohort

NOTE: For more information about disaggregation of data by race and ethnicity, see the Methodological Notes. The graduation rates are the Student Right-to-Know (SRK) rates. Median values for the comparison group will not add to 100%. N is the number of institutions in the comparison group. Medians are not reported for comparison groups with less than three values.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Winter 2022-23, Graduation Rates survey component.

Figure 19. Graduation rates of all full-time, first-time degree/certificate-seeking undergraduate students within 150% of normal time to program completion, by type of aid: 2016 cohort

NOTE: Graduation rate cohort includes all full-time, first-time degree/certificate-seeking undergraduate students. Data were collected on those students, who at entry of the cohort, were awarded a Pell Grant and students who were awarded a Subsidized Stafford loan, but did not receive a Pell Grant. Graduation rates are the Student Right-to-Know rates. For more details, see the Methodological Notes. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Winter 2022-23, Graduation Rates survey component.

Figure 20. Bachelor's degree graduation rates of full-time, first-time bachelor's degree-seeking undergraduate students within 100%, 150% and 200% of normal time to completion: 2014 cohort

NOTE: The 100%, 150% and 200% graduation rates are calculated using the number of students who completed a bachelor's or equivalent degree from a cohort of students who entered the institution seeking a bachelor's or equivalent degree. For details, see the Methodological Notes. N is the number of institutions in the comparison group. Medians are not reported for comparison groups with less than three values.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Winter 2022-23, 200% Graduation Rates survey component.

Figure 21. Award and enrollment rates of first-time, full-time, degree/certificate-seeking undergraduate students after 8 years of entry, by Pell status: 2014-15 cohort

NOTE: Award measures are based on the highest award received after 8 years of entry and enrollment measures are based on students who did not receive an award after 8 years of entry. Student cohorts (i.e., first-time, full-time; first-time, part-time; non-first-time, full-time; and non-first-time, part-time) are degree/certificate-seeking undergraduate students who entered the institution between July 1, 2014-June 30, 2015. Pell recipients are students with demonstrated financial need. For more details, see the Methodological Notes. N is the number of institutions in the comparison group. Medians are not reported for comparison groups with less than three values.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Winter 2022-23, Outcome Measures survey component.

Figure 22. Award and enrollment rates of first-time, part-time, degree/certificate-seeking undergraduate students after 8 years of entry, by Pell status: 2014-15 cohort

NOTE: Award measures are based on the highest award received after 8 years of entry and enrollment measures are based on students who did not receive an award after 8 years of entry. Student cohorts (i.e., first-time, full-time; first-time, part-time; non-first-time, full-time; and non-first-time, part-time) are degree/certificate-seeking undergraduate students who entered the institution between July 1, 2014-June 30, 2015. Pell recipients are students with demonstrated financial need. For more details, see the Methodological Notes. N is the number of institutions in the comparison group. Medians are not reported for comparison groups with less than three values.

METHODOLOGICAL NOTES

Overview

This report is based on data supplied by institutions to IPEDS during 2022-23 data collection year. Response rates exceeded 99% for most survey components. IPEDS data release memos at <https://nces.ed.gov/ipeds/use-the-data/survey-components> provide an overview of the number of institutions responding to the survey components. Furthermore, data used in this report are provisional level and may be revised for a limited time through the IPEDS Prior Year Revision system.

Use of Median Values for Comparison Group

This report compares your institution's data to the median value for the comparison group for each indicator shown in the figure. If more than one indicator is present in a figure, the median values are determined separately for each indicator. Medians are not displayed for comparison groups with fewer than three values. Where percentage distributions are presented, median values may not add to 100%. To access all the data used to create the figures included in this report, go to 'Use the Data' portal on the IPEDS website at this provided link (<https://nces.ed.gov/ipeds>).

Missing Indicators

If an indicator is not reported for your institution, the omission implies that the indicator is not relevant to your institution and the data were not collected. Not all notes may be applicable to your report.

Use of Imputed Data

All IPEDS data are subject to imputation for total (institutional) and partial (item) nonresponse. If necessary, imputed values were used to prepare your report.

Data Confidentiality

IPEDS data are not collected under a pledge of confidentiality.

Disaggregation of Data by Race/Ethnicity

When applicable, some indicators are disaggregated by race/ethnicity. Data disaggregated by race/ethnicity have been reported using the 1997 Office of Management and Budget categories. Detailed information about the race/ethnicity categories can be found at <https://nces.ed.gov/ipeds/Section/Resources>.

Cohort Determination for Reporting Student Financial Aid, Graduation Rates, and Outcome Measures

Student cohorts for reporting Student Financial Aid and Graduation Rates data are based on the reporting type of the institution. For institutions that report based on an academic year (those operating on standard academic terms), student counts and cohorts are based on fall term data. Student counts and cohorts for program reporters (those that do not operate on standard academic terms) are based on unduplicated counts of students enrolled during a full 12-month period.

Student cohorts for reporting Outcome Measures are based on a full-year cohort from July 1-June 30 for all degree-granting institutions.

DESCRIPTION OF INDICATORS USED IN THE FIGURES

Admissions (only for non-open-admissions schools)

Admissions and Test Score Data

Admissions and test score data are presented only for institutions that do not have an open admission policy, and apply to first-time, degree/certificate-seeking undergraduate students only. Applicants include only those students who fulfilled all requirements for consideration for admission and who were notified of one of the following actions: admission, non-admission, placement on a wait list, or application withdrawn (by applicant or institution). Admitted applicants (admissions) include wait-listed students who were subsequently offered admission. Early decision, early action, and students who began studies during the summer prior to the fall reporting period are included. For customized Data Feedback Reports, test scores are presented only if scores are required for admission.

Student Enrollment

Enrollment Counts

12-month Enrollment captures a cumulative unduplicated headcount of enrollment over the full 12-month period beginning July 1 and ending June 30. In contrast, Fall Enrollment captures number of students enrolled on a particular date in the fall. Fall enrollment is often referred to as a "snapshot" of an institution's enrollment at a specific time.

FTE Enrollment

The full-time equivalent (FTE) enrollment used in this report is the sum of the institution's FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment survey component). Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or clock hours). See "Calculation of FTE Students (using instructional activity)" in the IPEDS Glossary at <https://surveys.nces.ed.gov/ipeds/VisGlossaryAll.aspx>.

Completions

Completions and Completers

Completions collects data on undergraduate and graduate completions and completers in a 12-month period beginning July 1 and ending June 30. Completions are the counts of postsecondary awards granted where each award reported once but multiple awards may be reported for one recipient. Completers are the counts of students granted postsecondary awards. The count of completers is collected in two ways. The first way counts all completers, while the second way counts completers by award level (e.g., number of associate's completers, number of bachelor's completers).

Student Financial Aid

Financial Aid Recipients and Amounts

Student Financial Aid collects the counts of undergraduate students awarded different types of financial aid and the total amounts of aid awarded. The average dollar amount of aid awarded is then calculated. In addition, Student Financial Aid collects counts of full-time, first-time undergraduate students awarded aid and amounts of aid, and counts and disbursed amounts for undergraduate and graduate students receiving military education benefits.

Charges and Average Net Price

Tuition and Required Fees (Published)

Tuition is defined as the amount of money charged to students for instructional services, and required fees are those fixed sum charges to students for items not covered by tuition and that are required of such a large proportion of all students that the student who does not pay the charge is an exception. The amounts used in this report are for full-time, first-time degree/certificate-seeking undergraduate students and are those used by the financial aid office to determine the financial need. For institutions that have differential tuition rates for in-district or in-state students, the lowest tuition rate is used in the figure. Only institutions that operate on standard academic terms will have tuition figures included in their report.

Average Institutional Net Price

IPEDS collects data to calculate average net price at each institution for two groups of undergraduate students: those awarded grant and scholarship aid and those awarded Title IV federal aid.

Average net price is calculated for full-time, first-time degree/certificate-seeking undergraduate students who were awarded grant or scholarship aid from the federal government, state/local government, or the institution anytime during the academic year. For public institutions, this includes only students who paid the in-state or in-district tuition rate. Other sources of grant aid are excluded. Average net price is generated by subtracting the average amount of federal, state/local government, and institutional grant and scholarship aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees (lower of in-district or in-state for public institutions), books and supplies, and the weighted average of room and board, and other expenses.

For the purpose of the IPEDS reporting, aid awarded refers to financial aid that was awarded to, and accepted by, a student. This amount may differ from the aid amount that is disbursed to a student.

Retention, Graduation Rates, and Outcome Measures

Retention Rates

Retention rates are measures of the rate at which students persist in their educational program at an institution, expressed as a percentage. For four-year institutions, this is the percentage of first-time bachelors (or equivalent) degree-seeking undergraduate students from the previous fall who are still enrolled in the current fall. For all other institutions this is the percentage of first-time degree/certificate-seeking undergraduate students from the previous fall who either re-enrolled or successfully completed their program by the current fall. The full-time retention rate is calculated using the percentage of full-time, first-time degree/certificate-seeking undergraduate students, while the part-time rate is calculated using the percentage of part-time, first-time degree/certificate-seeking undergraduate students.

Graduation Rates and Transfer-out Rate

Graduation rates are those developed to satisfy the requirements of the Student Right-to-Know Act and Higher Education Act, as amended, and are defined as the total number of individuals from a given cohort of full-time, first-time degree/certificate-seeking undergraduate students who completed a degree or certificate within a given percent of normal time to complete all requirements of the degree or certificate program; divided by the total number of students in the cohort of full-time, first-time degree/certificate-seeking undergraduate students minus any allowable exclusions. Institutions are permitted to exclude from the cohort students who died or were totally and permanently disabled; those who left school to serve in the armed forces or were called up to active duty; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on an official church mission.

A further extension of the traditional Graduation Rates (GR) survey component which carries forward 100% and 150% graduation rates data previously reported in the GR survey component is the Graduation Rates 200% (GR200) survey component, which requests information on any additional completers and exclusions from the cohort between 151% and 200% normal time for students to complete all requirements of their program of study.

Transfer-out rate is the total number of students from the cohort who are known to have transferred out of the reporting institution (without earning a degree/award) and subsequently re-enrolled at another institution within the same time period; divided by the same adjusted cohort (initial cohort minus allowable exclusions) as described above. Only institutions with a mission that includes providing substantial preparation for students to enroll in another eligible institution are required to report transfers out.

Outcome Measures Data

Alternative measures of student success are reported by degree-granting institutions to describe the outcomes of four degree/certificate-seeking undergraduate student groups: first-time, full-time entering (FTFT); first-time, part-time entering (FTPT); non-first-time, full-time entering (NFTFT); and non-first-time, part-time entering (NFTPT). Additionally, each of the four cohorts collects data on two subcohorts: Pell grant recipients and non-Pell grant recipients. These measures provide the 4-year, 6-year, and 8-year award rates (or completions rates) after entering an institution. NCES calculates award rates by dividing a cohort's or subcohort's adjusted cohort into the number of total awards at 4-year, 6-year, and 8-year status points.

The initial cohort can be revised for allowable exclusions resulting in an adjusted cohort. Institutions are permitted to exclude from the initial cohort students who died or were totally and permanently disabled; those who left school to serve in the armed forces or were called up to active duty; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on an official church mission.

The highest award and the type of award (i.e., certificate, Associate's, or Bachelor's) are reported at each status point. For students who did not earn an undergraduate award after 8-years of entry, the enrollment statuses are reported as either still enrolled at the institution, or subsequently transferred out of the institution. Unlike the Graduation Rates data, all institutions must report on a full-year cohort (students entering July 1 of one year to June 30 of the next year) and on their transfer out students, regardless if the institution has a mission that provides substantial transfer preparation.

Finance

Core Revenues

Core revenues for public institutions reporting under GASB reporting standards include tuition and fees; government (federal, state, and local) appropriations and operating and nonoperating grants/contracts; private gifts, grants, and contracts (private operating grants/contracts plus gifts and contributions from affiliated entities); sales and services of educational activities; investment income; other operating and nonoperating sources; and other revenues and additions (capital appropriations and grants and additions to permanent endowments). "Other core revenues" include federal appropriations, sales and services of educational activities, other operating and nonoperating sources, and other revenues and additions.

Core revenues for private, not-for-profit institutions (and a small number of public institutions) reporting under FASB reporting standards include tuition and fees; government (federal, state, and local) appropriations and grants/contracts; private gifts, grants and contracts (including contributions from affiliated entities); investment return; sales and services of educational activities; and other sources (a generated category of total revenues minus the sum of core and noncore categories on the Finance survey component). "Other core revenues" include government (federal, state, and local) appropriations, sales and services of educational activities, and other sources.

Core revenues for private, for-profit institutions reporting under FASB reporting standards include tuition and fees; government (federal, state, and local) appropriations and grants/contracts; private grants/ contracts; investment income; sales and services of educational activities; and other sources (a generated category of total revenues minus the sum of core and noncore categories on the Finance survey component). "Other core revenues" include government (federal, state, and local) appropriations and other sources.

At degree-granting institutions, core revenues exclude revenues from auxiliary enterprises (e.g., bookstores and dormitories), hospitals, and independent operations. Non-degree-granting institutions do not report revenue from auxiliary enterprises in a separate category, and thus may include these amounts in the core revenues from other sources.

Core Expenses

Core expenses include expenses for instruction, research, public service, academic support, student services, institutional support, scholarships and fellowships (GASB) or net grant aid to students (FASB) and other expenses. Core expenses exclude expenses for auxiliary enterprises, hospitals, and independent operations. "Other core expenses" is the sum of grant aid/scholarships and fellowships and other expenses.

Endowment Assets

Endowment assets, for public institutions under GASB reporting standards, and private, not-for-profit institutions under FASB reporting standards, include gross investments of endowment funds, term endowment funds, and funds functioning as endowment for the institution and any of its foundations and other affiliated organizations. Private, for-profit institutions under FASB do not hold or report endowment assets.

Salaries and Wages

Salaries and wages for public institutions under GASB reporting standards and private (not-for-profit and for-profit) institutions under FASB reporting standards, include amounts paid as compensation for services to all employees regardless of the duration of service, including all regular or periodic payments to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a services (e.g., overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.)

Staff

FTE Staff

The full-time-equivalent (FTE) by occupational category is calculated by summing the total number of full-time staff and adding one-third of the total number of part-time staff. Occupational categories include instructional staff, research staff, public service staff, instructional support staff, management staff, and other occupations. Instructional staff are primarily engaged in teaching and do a combination of teaching, research, and/or public service. Research staff are staff whose primary function is research while public service staff are staff whose primary function is public service. Instructional support occupations include archivists, curators, and museum technicians; librarians and media collections specialists; librarian technicians; student and academic affairs and other education services occupations. Other staff include staff in service occupations; sales and related occupations; office and administrative support occupations; natural resources, construction, and maintenance occupations; production, transportation and material moving occupations; and military specific occupations. Graduate assistants are not included.

Equated Non-Medical Instructional Staff Salaries

Institutions report the number of full-time non-medical instructional staff and their salary outlays by academic rank, gender, and the number of months worked (9-, 10-, 11-, and 12-months). Salary outlays for staff who worked 10-, 11-, and 12-months were equated to 9-months of work by multiplying the outlays reported for 10-months by 0.90, the outlays reported for 11 months by 0.818, and the outlays reported for 12-months by 0.75. The equated 10-, 11-, and 12-outlays were then added to the outlays for instructional staff that worked 9-months to generate a total 9-month equated salary outlay. The total 9-month equated outlay was then divided by total number of non-medical instructional staff to determine an equated 9-month average salary. This calculation was done for each academic rank. Salary outlays were not reported for staff that work less than 9-months and were excluded.

Student-to-Faculty Ratio

Institutions can provide their institution's student-to-faculty ratio (i.e., student-to-instructional staff) for undergraduate programs or follow the NCES guidance in calculating their student-to-faculty ratio, which is as follows: the number of FTE students (using Fall Enrollment survey component data) divided by total FTE instructional staff (using the total primarily instruction + instruction/research/public service staff reported in Human Resources survey component and adding any not primarily instructional staff that are teaching a credit course). For this calculation, FTE for students is equal to the number of the full-time students plus one-third the number of part-time students; FTE for instructional staff is similarly calculated. Students in "stand-alone" graduate or professional programs (such as, medicine, law, veterinary, dentistry, social work, or public health) and instructional staff teaching in these programs are excluded from the FTE calculations.

Libraries

Library Collections

Library collections comprise of documents held locally and remote resources for which permanent or temporary access rights have been acquired. Access rights may be acquired by the library itself, by a consortium and/or through external funding. Interlibrary lending and document delivery are excluded from the collection.

Degree-granting institutions with total library expenses greater than zero and/or had access to a library collection report their physical books, media, and serials collections and their digital/electronic books, media, serials, and database collections.

Counts in each category (i.e., physical books, media, and serials as well as digital/electronic books, media, serials, and databases) are the number of held at the end of the most recent fiscal year. The percent distribution of each resource is derived by dividing the counts in each category by the total of all categories.

Digital/electronic books and media are reported by titles owned or leased by the library if individual titles are cataloged and/or searchable through the library catalog or discovery system. E-serials are reported by titles that are accessible through the library's catalog or discovery system. Digital and Electronic databases are reported by the total number of licensed digital/electronic databases in the institutions collection if there is bibliographic or discovery access at the database level.

Library Expenses

Library expenses are funds expended by the library (regardless of when received) from its regular budget and from all other sources (e.g., research grants, special projects, gifts and endowments, and fees for services) for the most recent 12-month period that corresponds to your institution's fiscal year that ends before October 1.

Degree-granting institutions with total library expenses less than \$100,000 are not required to report their expenses to IPEDS. Salaries and wages are reported from the library budget or all other institutional sources that are identifiable. Fringe benefits are reported only if paid from the library budget. The percent distribution of each category of expense is derived by dividing each expense category by the sum of total library expenses.

Additional Resources

Additional information on the IPEDS survey components, including survey methodology, survey forms, and frequently asked questions, can be found at <https://nces.ed.gov/ipeds/use-the-data/survey-components>.

Additional information on the timing of IPEDS data collection, data coverage, and data release cycle, can be found at <https://nces.ed.gov/ipeds/use-the-data/timing-of-ipeds-data-collection>.

Additional definitions of variables used in this report can be found in the IPEDS glossary available at <https://surveys.nces.ed.gov/ipeds/VisGlossaryAll.aspx>.

Additional resources on the IPEDS Data Feedback Report, including the instructions on creating a custom comparison report, FAQs, and video tutorials, can be found at <https://nces.ed.gov/lped/Help/View/2>.
